SOUERAST

Convenient & Warm-tech

Qualcomm Snapdragon 8155 Chip

Hyper computability, super brain. Supported by Snapdragon 8155 chip, infotainment features can be switched easily .

Whether it is complex navigation calculations or instant analysis of road conditions, this 'super brain' can perform them quickly and accurately, allowing the driver to cope with a wide range of road conditions and enjoy a more comfortable and intelligent way of travelling.

CarPlay + Android Auto

Your phone is the infotainment system. The car is compatible with both iOS and Android system.

Through the wireless connection technology, your mobile phone and the in-vehicle system to achieve a deep integration, the mobile phone in the navigation, music, calling and other applications can be displayed directly on the car screen, the operation is smooth and natural.

ADAS Intelligent Driving Assist

With advanced intelligent driving assist, it seems you have a deputy assisting you, enabling you to go hands-off and at ease.

Adaptive Cruise Control (ACC)
S07 helps vehicles maintain a safe following distance and stay within the speed limit. The system automatically adjusts the car's speed, so the driver doesn't have to.

Lane Keep Assist (LKA)
It's an intelligent technology that actively applies steering or braking to prevent your car from crossing the lane line when you don't want it to and potentially causing an accident.

Lane Departure Warning (LDW)
Systems will warn the driver if he or she leaves a marked lane without using the indicator, or if the vehicle is drifting out of its travel lane.

Forward Collision Warning (FCW)
S07 uses sensors to scan the road ahead of you for obstacles such as other vehicles, fixed objects, and even pedestrians. While you're driving, it measures the speed and distance of your vehicle and objects around you.

High Beam Assist (HMA)
This system automatically switches the headlamps from high beam to low beam when it detects a vehicle ahead. Frequent use of the high beams helps to detect pedestrians earlier, making driving safer.

Autonomous Emergency Braking (AEB)
S07 keeps a constant eye on the road ahead and will automatically bring the vehicle to a halt if the driver fails to take action in case of danger.

Bosch ESP Electronic Stability Program

Equipped with Bosch 9.0 ESP Electric Stability Program, the car can easily cope with curvy roads and bad weather. It will be safer as the car is less likely to slip or lose control.

540° HD Panoramic Camera

540° HD Panoramic Camera, completely eradicates any possible safety problems with chassis.

Bluetooth Remote Start

Engine start by your key. After getting connected to the car, it allows you to start the engine with Bluetooth of your key. With remote start, AC will also be switched on automatically to prior temperature and wind speed.
